Hiring Manager

Company Name

Dear Hiring Manager,

I am writing to express my interest in the internship opportunity at your organization. As a final-year BCA student at MG University with hands-on experience in software development, full-stack projects, and problem-solving, I am eager to contribute my skills and learn from your esteemed team.

My portfolio includes diverse projects such as **Harvast (e-commerce site)**, **CareerBridge (job portal)**, **AI Mock Interviews**, and **Novapress (AI-powered news aggregator)**. These experiences have allowed me to work with a wide range of technologies including **React.js**, **Node.js**, **Python**, **Java**, **PHP**, **MySQL**, **MongoDB**, **Firebase**, and **Git**. I have also applied software engineering principles like **OOP**, **REST API development**, **Agile methodologies**, and cloud concepts.

Beyond my technical expertise, I bring a strong learning mindset, adaptability, and a collaborative approach to problem-solving. I am confident that my skills align with your requirements for interns in areas such as software development, data science, QA, backend/frontend development, or tech support.

I am excited about the opportunity to contribute to impactful projects at your organization while also growing as a professional. Please find my resume attached for your review. I look forward to the possibility of contributing to your team.

Sincerely,

Jewel Thomas
